## Facials

---

Our experienced estheticians cleanse, hydrate and brighten your skin using the latest tools, techniques & products (e.g. Organic Facials, Microdermabrasion).

## Hair

---

Update your look or completely change your style with the help of our reputable experts. If you want somebody who understands your needs and can provide your monthly or bi-weekly cut & styling, look no further. We'll give you the perfect Brazilian Blowout or Keratin treatment - come & discuss your needs.

## Nails & Waxing

---

Get a facial for your hand & feet. From classic manicures & pedicures to 3D nails & Shellac we have it all.

Advanced waxing techniques are used to thoroughly remove hair from the most sensitive skin under the most sanitary conditions.

## Massage Therapies

---

We offer all the popular massage therapies but we add our unique touch to each. Whether you're looking for Swedish or Deep Tissue, Cranial Sacral or Prenatal, Lymphatic Drainage or Myofascial Release, we've got it all.

Choose from a wide range of add-ons, such as Hot Stones & Scalp Massage. Pick your duration (1-2 hours) and number of therapists (1 or more).

## Skin & Body

---

Skin tightening is a method of compacting the collagen you have (immediate effects) while stimulating new collagen to grow around it (delayed effects by 3-6 months). This firms the skin and repositions. Tissue tightening is available for almost every part of the body and face.

Our advanced devices tighten your skin, improve the appearance of cellulite, and enhance your overall body contours. Radiofrequency energy works by gently heating your lower skin layers without harming your outer layer. The lower layers are heated because that's where collagen, the long-stranded protein responsible for skin firmness, is located.

## Makeup

---

Whether you want to glam it up for your special occasion or get ready for a wedding, we have a number of options for you to look & feel your best.
