Safety and Security Arrangements and Organisation

The following provisions are in place at Hilton hotels (and hotels within the Hilton family of brands), unless local law specifies otherwise.

24th of April 2019

Guest Room Provisions:

- External locks.
- Secondary locking device for entry and connecting doors.
- Entry door viewer.
- Self closing entry door.
- In room safes or central safety deposit boxes provided.

Fire Prevention:

- The hotel complies with the requirements of local fire safety enforcement laws.
- Fire drills involving all team members are conducted at least semi-annually.
- The fire alarm system includes automatic detection and audible alarms.
- Team members trained in fire evacuation procedures are on duty 24/7.
- Mandatory checklist relating to fire alarm system, fire detection, emergency lighting and portable firefighting equipment completed and recorded.
- Fire doors to protected escape stairwells have self-closing devices fitted.
- Fire doors are in place to high risk rooms (technical rooms, boiler rooms, electrical rooms etc).
- Self-closing devices on all guestroom doors.
- Emergency escape signage is in place in public and back of house areas.
- Emergency lighting is in place in public and back of house areas.
- Evacuation information is available in all guest bedrooms, on the rear of the door or in close proximity to the entrance.
- Internal exits have crash bars for automatic release (or an alternative emergency release system). No exits are locked or require keys.

First Aid:

The hotel has qualified first aiders on duty 24/7. We provide this facility for the team members, guests and members of the public. First aid requisites are checked regularly.

Security:

Security cameras are provided in certain areas as a deterrent to crime. Security is provided on a risk based approach.

Food Safety:

This hotel follows the principles of HACCP guidelines in line with local and national food hygiene regulations and receives inspection from local authority officials.

Workplace Safety:

This hotel carries out periodic internal inspections to ensure hazards are identified and removed or control measures are implemented.
Inspections and Support:

Periodic inspections undertaken to support safety and general welfare conditions. The aim is to confirm compliance with local and national legislation within the country of operation. The inspections confirm compliance or highlight hazards requiring attention.

Accident Reporting:

Incidents, with the potential to have caused injury or accidents causing injury or property damage are investigated and recorded.

Control of Hazardous Substances:

The supply and use of substances in the hotel is controlled as is the provision of personal protective equipment.
