### INGREDIENT OF THE MONTH

#### KIWIFRUIT

There is no end to the number of ways you can eat kiwifruit! Kiwis are a perfect neon addition to fruit salads, desserts and mains. The brown and hairy exterior of this egg-shaped fruit doesn't look promising, but inside it's a different story - sweet, yielding, bright green flesh, prettily dotted with black seeds. It is named after the bird of the same name in New Zealand, though its other name, Chinese gooseberry, reflects its original country of origin.

Kiwi Pavlova topped with kiwifruit coulis served Appleby farm's hokey pokey ice cream and fresh whipped cream \$15
